

## **Hinckley United Reformed Church**

### **Prayers for week beginning 12<sup>th</sup> August 2024**

**Monday 12 August 2024** Today is International Youth Day, half the people on our planet are below 30 years old. Lord Jesus, we pray for the youth of our world and their future. We also pray for those who have got or are getting exam results soon and the decisions they must make about their future.

**Tuesday 13 August 2024** Are you having a wash or shower today? Are you washing the dishes or the windows? Use these activities during the day as a mindful reminder to pray and ask Jesus to wash away those bad things in our lives, to make us clean and new again.

**Wednesday 14 August 2024** We continue to pray for the families in Southport and those who have been affected by the riots in our towns and cities. We ask God to comfort those who live in fear and for outreach from the Christian communities in the midst of these events.

**Thursday 15 August 2024** Take a couple of deep breaths, right down into your tummy. We are fortunate to have relatively good quality of air in the UK. We ask God to help those countries where air pollution is bad giving poor quality of health. Pray to God for ideas to how we as individuals can reduce our carbon emissions, so reducing our impact on climate change.

**Friday 16 August 2024** You may be planning a weekend meeting friends and family. But we ask Jesus today to be with those who are alone or lonely much of the time and find it difficult. We pray to ask guidance as to how our church can support those who are isolated in our communities.

**Saturday 17 August 2024** Have a grateful day! Look back over this last week with God and begin counting the many blessings you have received. Give thanks to Him who has given you so much this week and be grateful.

**Sunday 18 August 2024** We join together at our church to receive communion, take in a new message from Andrew, sing, prayer and share fellowship. Rejoice with the worldwide community of Christians who will be doing just the same as we are around our planet. Let us prayer that together we can restore the world to how God would want it and us to be.
